### RUNESTONES

You will also be collecting runestones. You may see only the markings or hear only the name. Sometimes, you may get both, but you should use this list of the 24 runes to make a note of all the stones that you **collect**. And keep in mind that type AND quantity are important.

For example, if you collect three Isa, no Raidho and one Sowilu runestones, your list would be marked like this:

I	✓✓✓	Isa	I
R		Raidho	R
S	✓	Sowilu	S

Some of them may prove to be highly important during your time at Metamorphosis...
